THD Light-Scope RECTO
Improving Infection Control

THD Light-Scope RECTO

Rigid Recto-Sigmoidoscope

Magnifying Lens

The THD Light-Scope combines a magnifying lens with an inbuilt lighting system to provide clear visibility of the inspection area.

FEATURES

- ▶ Self-illuminating with built-in light
- ▶ 4x magnification
- ▶ Single-use insufflation bulb included

BENEFITS

- ▶ Eliminates cross-contamination
- ▶ No need for external light
- ▶ Saves considerable reprocessing and nurse-time

INNOVATIVE

SELF-ILLUMINATING

SINGLE-USE SYSTEM

Self-illuminated Lighting System

The THD Light-Scope needs no other light source to illuminate the area being inspected, saving clinicians time and eliminating the need for costly external lighting systems.
